If you select this option, you can transfer account and network details from your Android device to your TV with a few simple clicks. Before you start setting up your Android TV, you need to make a note of a few things that you will need. If you have trouble casting, follow the steps below to make sure it's enabled on your Android TV. Choose Sign in and then use your remote. How to set up an Android TV using an Android phone? Google is working with app developers to add the feature to their respective apps. To finish setup, follow the instructions on your TV. How to set up an Android TV using the remote? By default, most Android TV remotes can only turn on/off your device using an IR connection. Tap on it to rearrange your preferences. To re-order apps and adjust autoplay settings for previews that you see on your home screen, navigate to Settings > Device Preferences. You also get Google Play Movies & TV and Google Play Games pre-installed. It has now started rolling out to Nvidia Shield TV devices. Make sure this app is updated. Now, head to the Google Home app and tap on the name of your TV. Adanya Sharma / Android AuthoritySo, you've got yourself a brand new Android TV that you need to set up from scratch. Chromecast if you have an Android TV, you can cast content such as photos and videos from your phone, tablet, or laptop to your TV screen. On your Android phone, open the pre-installed Google app. However, the company hasn't specified when exactly the update will land on other Android TV devices and if it applies to all Android TV versions in all regions. Plex is one of the best Android TV apps you can get. Plex also features ad-supported video-on-demand content, which it has now expanded with a partnership with Crackle. Some older TVs are still stuck on Android 8.0. A Bluetooth connection is required for every other feature. Device analytics: Full diagnostic information including CPU temperature and utilization, Wi-Fi and Bluetooth signal strength, network speed and response time, as well as RAM and ROM utilization. Additionally, Kodi allows you to install third-party plugins that may provide access to content, which is not always legal. When your TV says, "Quickly set up your TV with your Android phone?" use your remote to choose Skip. Device administration: API specification for all core eDM features, device group creation and provisioning, user/page authorities and settings. You'll find the familiar gear icon for your Android TV's settings on the top right corner of your home screen. It organizes all your personal media, including photos, music, movies, shows, and more, and presents it in a simple, easy to navigate UI. It can even control playback and volume as well as switch off your Android TV with voice commands. If you're looking to stream your photos, you can import them to Kodi, and it will set up an image library for you. If that's the case for you, there's no option but to wait for your Android TV OEM to roll out the latest software version. Sadly, the Google Drive app is not available through the Google Play store for Android TVs. However, you can always sideload the APK file by installing the Send files to TV app on your smartphone and television. That's everything you need to know about Android TV setup! To know more about Android TVs and related devices, head here to our comprehensive Android TV buyer's guide. It is an open-source, cross-platform Home theater PC (HTPC) software that works for both local and network storage services. When the cast icon changes color, it means you are successfully connected to your TV. Cast Connect goes beyond the traditional Chromecast capabilities and also allows you to control casted content on your TV using the remote. You can check out all the games optimized for remote play on your Android TV here. If you have media such as photos or videos stored on your Google Drive and want to access it on a big screen, you can just download the Google Drive app on your Android TV. In this way, your phone acts as a remote control for the content that you are watching on your TV. Select Apps. To do this, head to Home screen > Settings (gear icon) > Device preferences > Screen saver. You can also make your own photos from the Google Photos app appear as screen savers on your Android TV. Now operators have a choice for providing a stunning, graphic-rich interactive viewing experience for their customers. You'll find all the default channels on the left side of your home screen, such as apps, Netflix, YouTube, Google Play Music, Amazon Prime Video, and more. On the row beside each channel, you'll see suggestions for that category. Follow the on-screen instructions to pair your remote. How to set up your Android TV using a computer?
